Arco Platform Limited Reports Third Quarter 2019 Financial Results

Arco Delivered Above its 2019 ACV Bookings Guidance of R\$441 million and Expects Another Strong Year for ACV Bookings in 2020

São Paulo, Brazil, November 26, 2019 – Arco Platform Limited, or Arco (Nasdaq: ARCE), today reported financial and operating results for the quarter ended September 30, 2019.

“We successfully surpassed our ACV guidance for 2019 as a result of our tireless commitment with our clients. As we look forward, we are thrilled to announce strong expectations for ACV Bookings for 2020. This result reflects the consistency of our platform’s superior academic results, the power of our competitive advantages and our focus on generating sustainable, long-term oriented results.” said Ari de Sá Neto, CEO and founder of Arco.

Nine Months 2019 Results

- Net Revenue of R\$325.2 million;
- Net Loss of R\$51.9 million;
- Adjusted Net Income of R\$92.4 million; and
- Adjusted EBITDA of R\$103.1 million.

Third Quarter 2019 Results

- Net Revenue of R\$70.6 million;
- Net Loss of R\$108.5 million;
- Adjusted Net Income of R\$0.8 million; and
- Adjusted EBITDA of R\$ -7.3 million.

Revenue Recognition and Seasonality

As we report the third quarter 2019 results, it is important to highlight the revenue recognition and seasonality of our business.

We typically deliver our Core Curriculum content four times each year, in March, June, August and December and our Supplemental Solutions content twice each year, in June and December, usually two to three months prior to the start of each school quarter. The amount of revenue recognized is proportional to the amount of content made available, which is not linearly distributed among the quarters. This causes revenue seasonality in our business, in which the third quarter revenue is the lowest point of the year.

A significant portion of our expenses is also seasonal. Due to the nature of our business cycle, we require significant working capital, typically in September or October of each year, to cover costs related to production and accumulation of inventory, selling and marketing expenses, and delivery of our teaching materials at the end of each fiscal year in preparation for the beginning of each school year. Therefore, such operating expenses are generally incurred in the period between September and December of each year.

Full Year 2020 (From October 2019 to September 2020) ACV Bookings guidance:

- ACV Bookings for Arco Platform is expected to be approximately R\$1,000 million.
- ACV Bookings for Arco, excluding Positivo, is expected to grow between 32% and 34%.

Full Year 2019 guidance:

- We expect to recognize in the fourth quarter (4Q19) 26% to 29% of the consolidated ACV Bookings 2020.
- Adjusted EBITDA Margin for Arco, excluding Positivo, is expected to be in the range of 35.5% to 37.5%.

Preliminary results from Purchase Price Allocation (PPA) for Positivo Soluções Didáticas (“Positivo”): Arco’s preliminary PPA for the acquisition of Positivo based on June 2019 figures resulted in an estimate of approximately R\$1,500 million of both identifiable intangible assets and goodwill, which should generate an estimated tax benefit of R\$510 million over their amortization period, from the time the incorporation of Positivo by EAS Educação is finalized, which we expect will happen in the third quarter 2020.

Forward-Looking Statements

This press release contains forward-looking statements as pertains to Arco Platform Limited (the “Company”) within the meaning of the Private Securities Litigation Reform Act of 1995, including, but not limited to, the Company’s expectations or predictions of future financial or business performance conditions. The achievement or success of the matters covered by statements herein involves substantial known and unknown risks, uncertainties and assumptions. If any such risks or uncertainties materialize or if any of the assumptions prove incorrect, the Company’s results could differ materially from the results expressed or implied by the statements we make. You should not rely upon forward-looking statements as predictions of future events. Forward looking statements are made based on the Company’s current expectations and projections relating to its financial conditions, result of operations, plans, objectives, future performance and business, and these statements are not guarantees of future performance.

Statements which herein address activities, events, conditions or developments that the Company expects, believes or anticipates will or may occur in the future are forward-looking statements. You can generally identify forward-looking statements by the use of forward-looking terminology such as “anticipate,” “believe,” “can,” “continue,” “could,” “estimate,” “evaluate,” “expect,” “explore,” “forecast,” “guidance,” “intend,” “likely,” “may,” “might,” “outlook,” “plan,” “potential,” “predict,” “probable,” “project,” “seek,” “should,” “view,” or “will,” or the negative thereof or other variations thereon or comparable terminology. Moreover, all statements in this press release, whether forward looking or of historical fact, as they relate to the Positivo Business (as defined below) are based on the limited information available to the Company during the due diligence process of Positivo and its business operations (the “Positivo Business”) prior to the signing of the acquisition agreement. This limited access to information may have impaired the Company’s ability to conduct a full and comprehensive assessment of the Positivo Business, thus leading to risks and uncertainties. Reasons for this uncertainty include, but are not limited to, the following: (i) the Positivo Business is a carve out of an entity with different businesses and, therefore, the analysis was conducted on the basis of pro forma, unaudited and adjusted financial statements of the Positivo Business; (ii) the accounting parameters and criteria adopted by the Positivo Business are different from the ones adopted by the Company; (iii) the transfer of the Positivo Business to a new entity limits the Company’s ability to assess the proper transfer of all assets and rights to such new entity. In addition, the forward-looking statements regarding the Positivo Business include risks and uncertainties related to statements about competition for the combined business; risks relating to the continued use of the Positivo brand in schools not run by the Company; restrictions and/or limitations on the acquisition of the Positivo Business that may be imposed by antitrust authorities or other regulatory agencies; risks relating to the Company’s ability to attract, upsell and retain customers of the Positivo Business; general market, political, economic, and business conditions in Brazil or abroad; and the Company’s financial targets are based on measures which include revenue, share count and other IFRS measures, as well as non-IFRS financial measures including gross margin, operating margin, net income per diluted share, EBITDA (as defined herein), Adjusted EBITDA (as defined herein) and free cash flow.

Forward-looking statements represent the Company management’s beliefs and assumptions only as of the date such statements are made, and the Company undertakes no obligation to update any forward-looking statements made in this presentation to reflect events or circumstances after the date of this press release or to reflect new information or the occurrence of unanticipated events, except as required by law.

Further information on these and other factors that could affect the Company’s financial results is included in filings the Company makes with the Securities and Exchange Commission from time to time, including the section titled “Risk Factors” in the Company’s most recent Forms 20-F and 6-K. These documents are available on the SEC Filings section of the Investor Relations section of the Company’s website at: <https://investor.arcoplatform.com/>

Key Business Metrics

ACV Bookings: We define ACV Bookings as the revenue we would contractually expect to recognize from a partner school in each school year pursuant to the terms of our contract with such partner school, assuming no further additions or reductions in the number of enrolled students that will access our content at such partner school in such school year (we define “school year” for purposes of calculation of ACV Bookings as the twelve-month period starting in October of the previous year to September of the mentioned current year). We calculate ACV Bookings by multiplying the number of enrolled students at each partner school with the average ticket per student per year; the related number of enrolled students and average ticket per student per year are each calculated in accordance with the terms of each contract with the related partner school.

Non-GAAP Financial Measures

To supplement the Company's consolidated financial statements, which are prepared and presented in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board—IASB, we use Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income and Adjusted Net Income Margin which are non-GAAP financial measures.

We calculate Adjusted EBITDA as profit for the year (or period) plus income taxes plus/minus finance result plus depreciation and amortization plus share of loss of equity-accounted investees plus share-based compensation plan and plus M&A expenses .

We calculate Adjusted Net Income as profit for the year (or period) plus share-based compensation plan plus amortization of intangible assets from business combinations (which refers to the amortization of the following intangible assets from business combinations: (i) rights on contracts, (ii) customer relationships, (iii) educational system, (iv) trademarks, and (v) non-compete agreement) less/plus changes in fair value of derivative instruments (which refers to (i) changes in fair value of derivative instruments—finance income, and plus (ii) changes in fair value of derivative instruments—finance costs) plus share of loss of equity-accounted investees plus interest expenses plus/minus changes in deferred tax assets and liabilities recognized in statements of income (corresponding to financial instruments from acquisition of interests, tax benefit from tax deductible goodwill, share-based compensation, restricted stock units and amortization of intangible assets), plus/minus foreign exchange gains/loss on cash and cash equivalents and plus M&A expenses .

We calculate Free Cash Flow as Net Cash Flows from Operating activities less acquisition of property and equipment less acquisition of intangible assets.

We understand that, although Adjusted EBITDA, Adjusted EBITDA Margin , Adjusted Net Income and Adjusted Net Income Margin are used by investors and securities analysts in their evaluation of companies, these measures have limitations as analytical tools, and you should not consider them in isolation or as substitutes for analysis of our results of operations as reported under IFRS. Additionally, our calculations of Adjusted EBITDA, Adjusted EBITDA Margin, Adjusted Net Income and Adjusted Net Income Margin may be different from the calculation used by other companies, including our competitors in the education services industry, and therefore, our measures may not be comparable to those of other companies.
